

# BCH-04 Plug-in Battery Charger 4 for AA/AAA Rechargeable Batteries

A direct 'plug into the mains' battery charger for up to 4 AA or AAA rechargeable batteries used in IRR-NL95, IRR-NL28 and IRR-LAN952

Special voltage monitoring (delta-V) prevents overcharging the batteries and the unit has a discharge function ensuring optimal battery condition. There is an LED indication of the charge and discharge functions.
